

Outcome Report
Humanity Through the Lens

I am pleased with the outcome of the project. The lens filters were very helpful in creating the aesthetics I envisioned. I was not limited by light exposure, and it allowed me to experiment with aperture. I did not have to compensate low aperture on a bright, sunny day. In addition, experimenting with film photography was a lot of fun. I learned more about light exposure in film photography. For film photography, I expanded my subject to landscape. I liked the aesthetics of landscape film photography a lot. The physicality of the film accentuated the physicality of the landscapes.

Budget:

Name	Cost (without tax)
PolarPro 82mm Peter McKinnon Signature Edition II Variable ND 0.6 to 1.5 Filter (2 to 5-Stop)	\$249.99
PolarPro 67mm QuartzLine Circular Polarizer Filter	\$99.99
Film Roll	\$40
Camera Straps	\$60
Printing Pictures	\$60
Total	\$499.97
