

Mini Grant Outcome

Nicholas Milkovich 4th Year Studio Art

Tetanus (10'x8'x2')

The project was a huge success. I completed the sculpture prior to it being installed in the McGuffey 4th year show entitled *Off the Wall*. Though the design of my piece did go through several design changes before the final product, the same amount of material and overall impact of the piece was preserved. Moving forward, I plan to add the bronze arrowheads I was unable to make before the show and switch the chain and pipe orientation for my 4th year exhibition at the conclusion of the spring semester.

Actual Cost Breakdown:

- 100 feet of 1" diameter Steel Circular Piping -\$148.60
- 100 feet of Zinc Plated Tow Chain & 1" diameter Drill Bits -\$215.95
- Replacement Chain- \$38.94
