

## Miller Arts Scholars Minigrant Outcome Report Jesper Braley

In my proposal, I suggested my minigrant help fund subscriptions to art programs necessary for my professional development as well as a vocoder-talkbox to assist me in composing music for my animations. With the grant money, I was able to fund parts of my subscriptions to Toonboom Storyboard Pro (yearly), the Adobe Suite (monthly), and the iPad version of Clip Studio Paint EX (yearly). I have started learning how to compose with the talkbox as part of my instrument repertoire, but I have not yet produced a full score for my planned animation. A reel showcasing parts of my past animations is included in the “animations” section of my portfolio linked below.

The works in my portfolio were created using the art programs mentioned above.

The \$500 has assisted in paying for parts of the following expenses:
