## Headshots and a Hard Drive Outcome Report

### Results:

Thanks to the generous support from Miller Arts Scholars, I was able to travel to Richmond and obtain two professional headshots from Colin Key Photography. I received two retouched headshots for a discounted student price of \$417.67. Colin also gave me access to other proofs we took that were untouched. I am happy with how both headshots turned out, however, I prefer the more serious headshot of me in the blue collared shirt. I ended up putting the second headshot on the front page of my website and my acting resume. I am confident these headshots will help my website look more professional and possibly assist me in securing more acting roles when submitting my new resume to casting calls. (Side note: there are different versions/crops of both photos, I just chose the versions I liked the most to include in this report).

In April, I purchased a 5 TB hard drive from BestBuy for \$115.82. Instead of the 4 TB hard drive I proposed, the 5 TB hard drive provided better storage. I was able to back up all of my OverCranked footage from the 2023 spring semester along with my previous filmmaking projects and footage from the past 10 years. I am grateful that I can preserve my artwork in a safe place because of Miller Arts Scholars. I hope to edit some unrealized projects/footage in the coming months, specifically some videos I recorded on my trip to Sitka, Alaska in 2021.

**Final Expenditures:**

<b>Item</b>	<b>Quantity</b>	<b>Cost</b>
2 Looks, 2 Retouched Images Package, Colin Key Photography	1	\$417.67 (discounted price from \$440)
WD - My Passport 5TB External USB 3.0 Portable Hard Drive - Black	1	\$115.82
<b>TOTAL COST</b>		<b>\$533.49</b> (\$33.49 paid out of pocket)
