Fall 2024 Minigrant Outcome Report

Expanding Tufting Options with More Machines

I'd like to thank the Miller Arts program for the minigrant award of \$500 to help contribute to my fourth-year tufting project. With this money I was able to purchase extra machines for this project that I was not originally aware I needed for my art award. I now have three extra tufting machines that will allow me to tuft in three different piling lengths as well as both cut and loop pilings. While the actual tufting has yet to come with the rest of my art award, I have gathered all of my materials and have been plotting out the basics of the rugs which I will finalize as more thesis details come.
