

Keyboard Outcome

Project Summary:

With the support of the Miller Arts Scholars Minigrant, I was able to purchase a Roland GO:Keys 5 keyboard. I have allowed my band's keyboardist to use it for our gigs this semester, which has allowed for a broader range of sounds that we can play with. Additionally, I used it to help create my final project in my sound studio class. I am taking the keyboard to Los Angeles this summer while I intern part-time at a music studio. I hope that having the keyboard with me during this time will enable me to come up with new ideas for songs before I begin my year-long Distinguished Major Project this upcoming fall.

My keyboardist, Danny Freedman, using the GO:Keys during one of our gigs
