Adobe Creative Cloud Subscription

I am asking for \$500 to pay for a two year subscription to Adobe Creative Cloud. This will allow me access to photo editing software such as Photoshop and Lightroom. I am currently enrolled in ARTS 2112 which covers digital photography. We are able to use Adobe Creative Cloud on the UVA computers in the digital photography studio at Ruffin Hall, however we do not have access to the Adobe Creative Cloud through personal computers. This means that we are limited to completing our work only at Ruffin Hall. With access to the Adobe Creative Cloud on my personal computer, I will be able to practice and improve my photo editing skills, and continue to do so after the semester has ended. The skills I will learn with Photoshop and Lightroom will be marketable towards many graphic design jobs, allowing me access to more career opportunities. With this subscription, I will be able to improve my photography and editing skills. In my outcome report, I will submit examples of the work I have created using the Adobe Creative Cloud.

Timeline

March 2024	Start Adobe Creative Cloud Subscription Start using the apps provided to edit photos Practice new skills in Photoshop and Lightroom
April/May 2024	Finalize photo edits Submit outcome report

Budget
